REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose, either singly or in combination, a photoelectric cell comprising a photoreceptor circuit; a switch for assigning the photoreceptor circuit to a reflex operating mode or to a proximity operating mode, wherein the photoreceptor surface comprises two juxtaposed photoreceptor areas each having differing structures, the first area comprises a photodiode area and a first output for operating in the reflex operating mode, the second area comprises means for analog detection of position of a spot of light, a second output for operating in the proximity operating mode, and a third output wherein the second output is a closed channel, and the third output is a remote channel of the second photoreceptor area for analog detection of position, the closed and remote channels for output of signals corresponding to relative distances to a target represented by a detected position of a spot of light, and the switch is for switching the first and second outputs to a processing circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephone B. Allen whose telephone number is (703) 308-4828. The examiner can normally be reached on Mon-Thurs from 0900-1700.
